LISTING OF CLAIMS

Claims 1-13 previously canceled.

14.   (Currently Amended)   A method for vehicle navigation comprising the steps of:

accessing a publicly accessible Web site using a computing device that is remote from a vehicle;

identifying within said Web site at least one destination;

automatically determining navigation information for said destination, wherein at least a portion of said navigation information includes geographic coordinates for said destination;

storing said navigation information in a first memory, wherein said first memory is remote from said vehicle;

providing a portable storage media, wherein said first memory is within said portable storage media;

transferring said portable storage media to a self-contained, in-vehicle navigation device in order to transfer said navigation information; and

transferring said navigation information from said first memory to [[a]]said self-contained, in-vehicle navigation device so that the in-vehicle navigation device is capable of independently navigating the vehicle to said at least one destination based upon the navigation information.

15.   (Previously Presented)   The method of claim 14, said method further comprising the steps of:

providing said first memory in a location remote from said computing device, wherein said first memory is communicatively linked to said Web site.
